### CAREER SUMMARY

Dynamic and detail-oriented Frontend Developer with a strong foundation in crafting responsive and user-centric web applications. Proficient in HTML, CSS, JavaScript, and modern frontend frameworks such as React.js, I excel in creating visually appealing and functional interfaces that enhance user experience. With a keen eye for design and a passion for coding, I bring innovative solutions to complex problems and thrive in collaborative environments. My commitment to continuous learning and staying updated with industry trends ensures that I deliver cutting-edge solutions. Seeking opportunities to leverage my skills in a challenging and growth-oriented role.

### TECHNICAL SKILLS

- PROGRAMMING LANGUAGE -
  - HTML
  - CSS
  - JAVASCRIPT
  - React.js
- TOOLS & TECHNOLOGY -
  - GIT
  - GITHUB
  - TAILWIND CSS
  - BOOTSTRAP

### WORK EXPERIENCE

#### Frontend Developer , Debugshala

May 2024 - Present

- Developing User Interfaces: Create responsive and intuitive user interfaces using HTML, CSS, and JavaScript, ensuring compatibility across various browsers and devices.
- Collaborating with Teams: Work closely with designers, backend developers, and product managers to implement new features and improve existing ones.
- Code Review and Optimization: Participate in code reviews, identify areas for improvement, and optimize code for performance and scalability.
- User Feedback Implementation: Gather and analyze user feedback to make informed decisions about interface improvements and new feature development.

### PROJECTS

#### Weather Forecast App

TECHNOLOGY USED - React.js, Tailwind CSS, OpenWeather API, Geolocation API

- Developed a weather forecast application using **React.js** with real-time weather updates.
- Built a **responsive UI** with Tailwind CSS and Lucide Icons for an intuitive user Integrated
- **OpenWeather API** to fetch weather data based on city search and user location..
- Implemented **geolocation-based weather fetching** to provide automatic weather updates.
- Designed a **real-time clock** to display the current time dynamically.
- Optimized performance with **efficient API handling, error management, and loading indicators**.
- Key Skills Demonstrated: **Frontend development, API integration, geolocation handling, responsive UI design, and real-time data updates**.

#### AI-CHAT BOAT

TECHNOLOGY USED - HTML CSS JavaScript API Integration

- Developed an interactive AI chatbot frontend using HTML, CSS, and JavaScript.
- Integrated Groq Cloud API to handle chat completions and generate real-time responses.
- Designed a clean, intuitive UI with smooth chat interactions for a seamless user experience.
- Implemented input validation and dynamic response handling for efficient conversation flow.
- Focused on creating an engaging user interface with real-time message updates and error handling.
- Optimized the interface for responsiveness across different screen sizes and devices.
- Key Skills Demonstrated: Frontend development, API integration, UI/UX design, real-time data handling, and error management.

### SOFT SKILLS

- PROBLEM SOLVING
- Team collaboration
- Communication

### EDUCATION

B.Tech Computer Science  
RGPV UNIVERSITY 2021-2025  
CGPA:- 6.8
